ABOUT US WHO WE ARE

FreightOscope is designed to help independent freight forwarders with a modern, secure, easy-to-use, and affordable digital forwarding platform to manage your business. The cloud based and fully integrated platform allows you to make data driven decisions and provides a seamless experience.

CLIENT TESTIMONIAL

"We have experienced several Rate Management Systems for sea freight. Freightoscope is the most effective, reliable, and affordable for small and medium-sized companies. On top of a well-developed product, the support is friendly and reactive to make improvements when necessary. Freightoscope is an IT tool to manage our buying, enabling our teams to do the selling and find the best options. It helps us and saves time."
